7th December 2011

MG/AM

Dear Parent/Carer,

Your son recently completed their mock exams for Science. They will be taking their GCSE Physics 2 module on 30th January 2012 this module exam is worth 25% of their final Additional Science. They may also be re-taking Biology 1 module on 24th of January 2012, Chemistry 1 module on 26th January 2012 and Physics 1 module on 30th January 2012. Again each module exam is worth 25% of their final Core Science GCSE and these are intended to help improve their overall Core Science GCSE grade. The pupils have been informed of any retake exams they have been entered for.

The mock exam results are very encouraging but the hard work and effort must continue through the rest of the term and over the Christmas holiday. In order to help them with revision and exam technique they are to attend specifically identified workshops which will be available every day after school, beginning Monday 5th of December. Each session will be 1 hour long and they will have to have an attendance form signed by the teacher running the workshop.

The workshops will also be held on the following dates; Friday 16th December 2011 and Friday 13th January 2012 these will be from 1.30-3.30pm.

We have also purchased an online revision and homework package which should be used at least 3 hours a week please could you make sure that they have access to a PC and can use this.

If you have any questions do not hesitate to ask.

Yours sincerely,

Mario Georgiades
Head of Science
