Curriculum Content: This is a checklist of topics you need to know for your Geography exam. For each topic indicate your level of understanding in the pre-unit at the start of the unit and the post-unit at the end of the unit or as instructed in lessons by your teacher.		PRE-UNIT Shade RED/AMBER/ GREEN	POST-UNIT Shade RED/AMBER/ GREEN
What evidence is there to suggest climate change is a natural process?	What evidence is there for climate change?		
	The pattern of climate change from the beginning of the Quaternary period to the present day		
	The range and reliability of evidence relating to climate change including evidence from sea ice positions, ice cores, global temperature data, paintings and diaries		
	Is climate change a natural process?		
	Outline the causes of natural climate change including the theories of sun spots, volcanic eruptions and Milankovitch cycles		
	Investigate the natural greenhouse effect and the impacts that humans have on the atmosphere, including the enhanced greenhouse effect		
	Why is climate change a global issue?		
	Explore a range of social, economic and environmental impacts of climate change worldwide such as those resulting from sea level rise and extreme weather events. The impacts studied should relate to the 21st century		
	Explore a range of social, economic and environmental impacts of climate change within the UK such as the impact on weather patterns, seasonal changes and changes in industry. The impacts studied should relate to the 21st century
